Narr: 1 Original Narrative - F8374 Ptrl Christopher Mullaney 4/07/2020

On 04/06/2020 I was dispatched to 133 Maple for a report of a breaking and entering. I contacted the complaint/victim, Lucah Stahl who advised me that an unknown person(s) stole his TV and Bose blue tooth speaker. Stahl said he left for spring break and came back today to retrieve his things and found his Samsun 50 inch tv (\$400) and his Bose wireless speaker (\$250) missing. Stahl advised that the back door to the house is always left unlock and his room was left unlocked. I check of the residence was conducted and nothing else of value was found missing. I checked the exterior of the residence and found that a window air-conditioner had been removed from the window to possible gain entry. I contacted several neighbors and was unable to gather any further information. I gave Stahl the report number for his records.
